## Our top 7 priorities for the future of girls work...

1. Not losing heart, keeping on, persevering
2. Be prepared to take risks! Take it on, bring it on! Don't be scared
3. Communicate all of this
4. Support each other, break down isolation, talk, disagree and agree, get together!
5. Hard evidence about girls work, and the importance of it! (e.g. for funders) – pool resources from different orgs that we can all own! (and research about how young women engage, and what resources are given to young women)
6. There is work happening and dedication, we need to share best practice and resources
7. Small groups/ practitioners to develop a manifesto for work with young girls
